About MAUS – Our Experience

The MAUS range has been supplied to business advisors, accountants and financial professionals for over 25 years. MAUS is recognised as the global de facto standard in strategic, business and operational planning having delivered more than 60,000 businesses and over 10,000 advisors with software and support in over a dozen countries.

The Exit Planning Pack

By MAUS Business Systems

The Exit Planning Pack is the perfect package to structure and automate your advisory offerings, with a focus on Exit & Succession. This special bundle includes 3 core tools; MAUS Client Needs Analysis, MAUS Value Gap Analysis and MAUS ValueMax.

- Step 1:** Use MAUS Client Needs Analysis to perform an initial audit of your clients business in minutes rather than hours.
- Step 2:** Use MAUS Value Gap Analysis to then excite and engage your client in regards to the exit & succession process.
- Step 3:** Use MAUS ValueMax to conduct a number of diagnostics focusing on the business and the individuals involved.

MAUS Client Needs Analysis

Structure the way you work and automatically produce stunning reports that will impress every time! MAUS Client Needs Analysis & Proposal Writer Software is the perfect tool for performing an initial audit of your clients business in minutes rather than hours. This tool provides you with a structured process to analyse your clients' business and provide a detailed client needs analysis and proposal report

- The software automatically compiles a professional client needs analysis based on a core set of questions.
- This dramatically reduces the stress and 'unknown' when first engaging with a client by having a structured approach that is effective for all clients.
- Simply run through the diagnostic questions with your client, and with the click of a button software will automatically produce a professional needs analysis report and client proposal.

Have only just purchased the software so I can't comment at this stage, other than to say that if the level of service thus far is anything to go by, I will be well pleased with my purchase. Everyone has been great. Will post again when I have used the software extensively

MAUS Value Gap Analysis

Structure the way you work and automatically produce stunning reports that will impress every time! MAUS Value Enhancement Gap Software creates a powerful return on investment selling document which explains the theory behind business valuation and also the value created by engaging your services. This is a must have for advisors who are working in Exit and Succession Planning. MAUS Value Enhancement Gap operates from the award winning MAUS Hub cloud based platform.

- The program is able to calculate for your client an approximate value both today and within a 1-5 year time frame simulating profit improvement and value enhancement as value generators.
- The software is designed to save you having to re-invent the wheel, in turn saving you hours of ground work and producing credible, professional ROI report every single time!

MAUS ValueMax

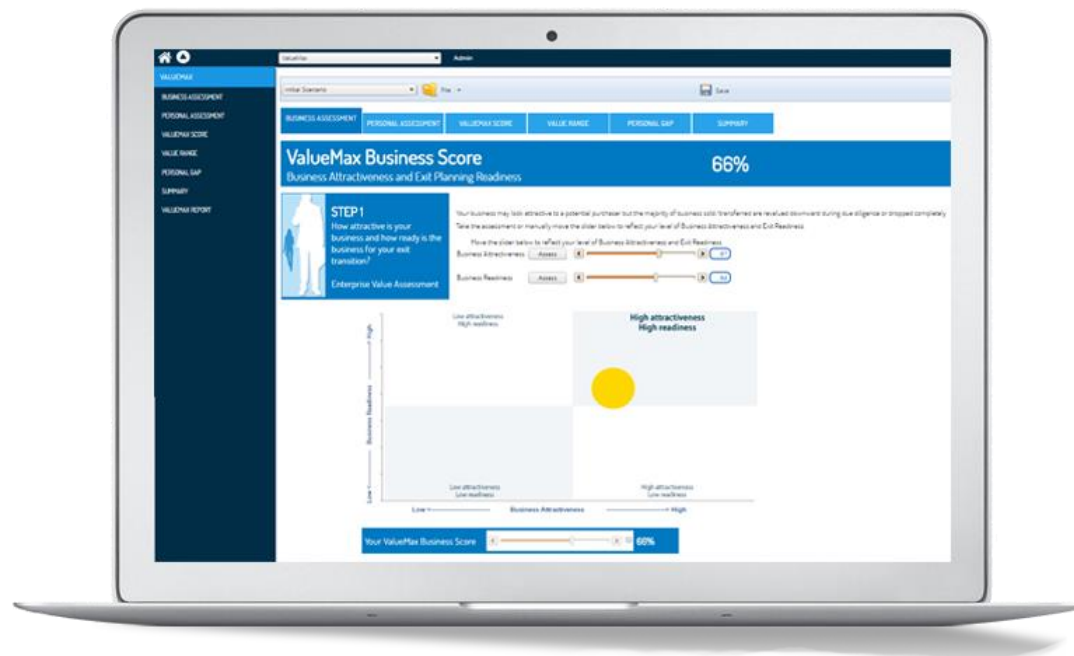

An extremely impressive software package (MAUS Exit Planner Pro) that produces exit and succession plan in minutes. I recommend this tool if you are looking to build a profitable practice.

Peter Christman

Structure the way you work and automatically produce stunning reports that will impress every time! MAUS ValueMax – Exit & Succession Planning Software will help you to create comprehensive exit and succession plans in minutes rather than hours. This tool provides you with a structured process to analyse your clients' business and provide a detailed exit action plan. Deliver you client a professional exit and succession plan report with just the click of a button!

- The audit process is automated with client questionnaires that can be automatically imported and then printed with 20-120 page reports.
- Each report is automatically branded with your practice details and includes your client details that are automatically merged into the reports.
